

Vulnerable Patients Requiring Social Support

Please discuss your daily needs during this period of staying at home with carers, family, friends, neighbours or local community groups to see how they can support you. **Wherever possible you should continue to rely on friends, family and wider support to help you meet your needs.** If you do not have any social support from anyone of the groups above, please see below for advice. Often online referral is easier than telephone. Also someone on your behalf can complete the referral either via online or telephone.
