## Annual Health Check Standards

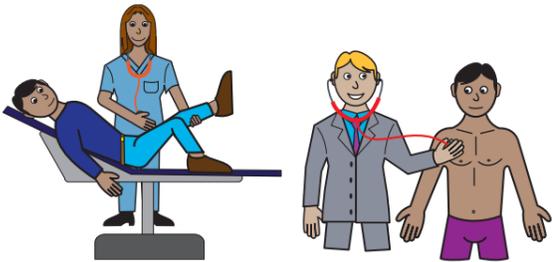

### Did you know?

- All people with a **Learning Disability** from the age of 14 are offered an **Annual Health Check**.

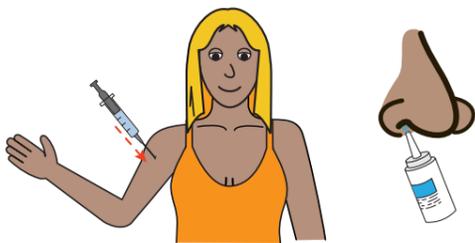

- An Annual Health Check should be a minimum of **30 minutes**.

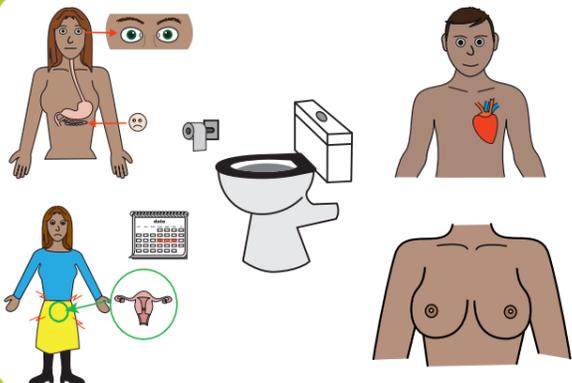

- The annual Health check should include a **physical examination**.

- The Doctor should ask about **everything in the Get Checked Out checklist**.

- From October each year service users should be offered the **Influenza Vaccine Free** of charge. If injections are refused, people with a learning disability can have a nasal spray.

- The Doctor should talk about or offer appropriate **National Health Screening and Immunisations**. More Information can be found in the Get Checked Out checklist.

Health Action Plan			
Name: _____		Date of health check: _____	
Health Issue	Action Needed	Review Date	Who will do it

- The Doctor should provide an **Health Action Plan** at the end of the Health Check stating either:
- The person is fit & well and to return in a year for an Annual Health Check.
- Health issues identified and support needed.
